Think about your current job and your company. What problem or challenge are you trying to solve?

Try to identify a problem or a challenge that your company is facing, on which you would like to gather ideas and insights from students. Summarize it in up to 3 sentences. It can be a specific challenge, or a theme that you would like to explore and that you consider relevant to your strategy.

What do you think is causing the problem or stimulating the challenge?

Please try to identify at least 3 reasons.

Information to support the existence of this problem / challenge:

Relevant data / facts / experiences

What skills and competencies do you think you need to solve the problem/challenge you have identified? Select any applicable option(s):

Information and data literacy (Browsing, searching, filtering, evaluating, and managing data and digital content.)
Communication and collaboration (Interacting, sharing, and collaborating through digital technologies.)
Digital content creation (developing digital content)
Problem-solving (Solving technical problems and creatively using DT)
Empathy (The understanding of another person's emotions, experiences, and values, and the provision of appropriate responses)
Communication (Use of relevant communication strategies, domain-specific codes, and tools, depending on the context and the content)
Collaboration (Engagement in group activity and teamwork acknowledging and respecting others)
Critical Thinking (Assessment of information and arguments to support reasoned conclusions and develop innovative solutions)
Spotting opportunities (Use your imagination and abilities to identify opportunities for creating value)
Creativity (Develop creative and purposeful ideas)
Valuing ideas (Make the most of ideas and opportunities)
Ethical and sustainable thinking (Assess the consequences and impact of ideas, opportunities, and actions)
Motivation and perseverance (Stay focused and don't give up)
Mobilizing others (Inspire, enthuse, and get others on board)
Planning and management (Prioritize, organize, and follow-up)
Other (specific work-related knowledge and skills):_____

What result(s) or impact would you expect to see from this project?

Please identify at least one goal for this project that you would like to see realized.

Company availability

Please share when your company mentor is available to assist the project development

Would you like to involve international schools/students in the development of the project?

Yes, I would like to make this an international project
No, I would like to keep this a local project

Challenge overview

Please add the challenge brief /overview

Featured image

Upload a featured image for your challenge (Max size: 1MB)
